

Outdoor Beverage Centre 190 Litres

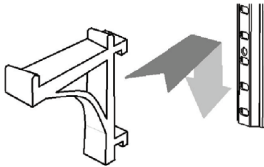

FEATURES

Internal LED Lighting, Triple Glazed Heated Glass Door,
Tropical Rated to 43° C, 190L Storage Capacity,
304 Grade Stainless Steel Door

Congratulations on your new InAlto Outdoor Beverage Centre!

INSTALLATION

- Two person installation: Use two or more able-bodied people to move and install the beverage centre. Failure to do so can result in back or other injury.
- Before connecting the beverage centre to the power source, let it stand upright for approximately 8 hours. This will allow any refrigerant gasses that may have been disturbed during the transportation process to settle and reduce the possibility of a malfunction in the cooling system from handling during transport.
- For a complete guide, refer to user manual, page 9-10.

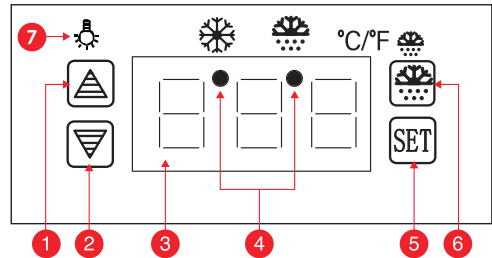

POSITIONING THE SHELVES

Position the shelf supports inside the racks on the sides at your required level. You can then place the shelves firmly on the supports and begin to load your contents.

DETAILS

Size (mm):
850H x 870W x 500D (+41 handle)
